

Great news for all Amadeus Subscribers!!

Amadeus launches Automated Ticketing Limits for Air France on 24th November'08

Advanced Ticketing Limits ensures accurate calculation and application of ticketing time limits to bookings containing flights and notifies our travel subscriber in real-time.

World full of Benefits to our Travel Agents:

- Upfront reliable information about ticketing deadlines at booking time, increasing operational traveler satisfaction.
- All Amadeus agents will benefit from the pop-up that displays the correct time-limit on Amadeus terminals.
- The Time Limit changes as per the modifications in segment / pricings.
- Timely warning before expiry of the ticketing time limit.
- Accurate and appropriate time limits based on the business rules.
- More inventory is recycled for sale.
- Enhancement of Ticket Limit management via automatic Queue placement.
- In case the time limit falls on the weekends, the actual cancellation will take place on the night between Monday & Tuesday.
- ATL will exempt waitlist segments.
- Handling of ATL ticketing time limits in local time of the booking office meaning that cancellations will always occur around midnight local time; this is a clear benefit compared to airline robotics that cancels all the PNRs around the same time GMT.

For more information on the product please refer to the Travel Agent's Guide.
