Not getting the expected fare?? Pricing request is rejected??

No worries!!!

### Use Amadeus Fare Diagnostics

- Fare diagnostic tool allows you to target a specific fare when pricing.
- If the fare is not applicable; it displays the reason for failure
- You can then refer directly to the applicable rule restriction to check how to qualify for the fare.
- This tool is available for Informative Pricing (FQP) and Itinerary Pricing (FXX) only.

### How does it work?

Sample PNR segments:

```
