Secure Flight Passenger Data

Dear Travel Partner,

As you are aware that with effect from 1st Oct 2010, it will be mandatory to enter Secure Flight Passenger Data in the PNRs, especially for passengers flying within, from and to the United States.

Key Benefits of the program

- Bringing better control of the passengers travelling within, to and from the US.
- Ensuring a smooth travel experience for these passengers, by performing advance watch list matching prior to departure and delivering boarding authorization

Secure Flight Passenger Data (SFPD) consists of the following information:

- **Passenger's Name** (as per passport)
- **Passenger's birth date** (DDMMYY format)
- **Gender** (M/F)
- **Redress Number** (if available).
- **Known traveler number** (if available – at a later stage)

Travel Agents must enter the SFPD (Secure Flight Passenger Data) only through the following elements of the PNR: **SSR DOCS** (Passenger name, DOB, Gender) and **SSR DOCO** (Redress Number – if applicable).

It is recommended that the SFPD information should be entered in the PNR at least **72 Hours Before** Departure (or immediately for booking created within 72hrs).
